
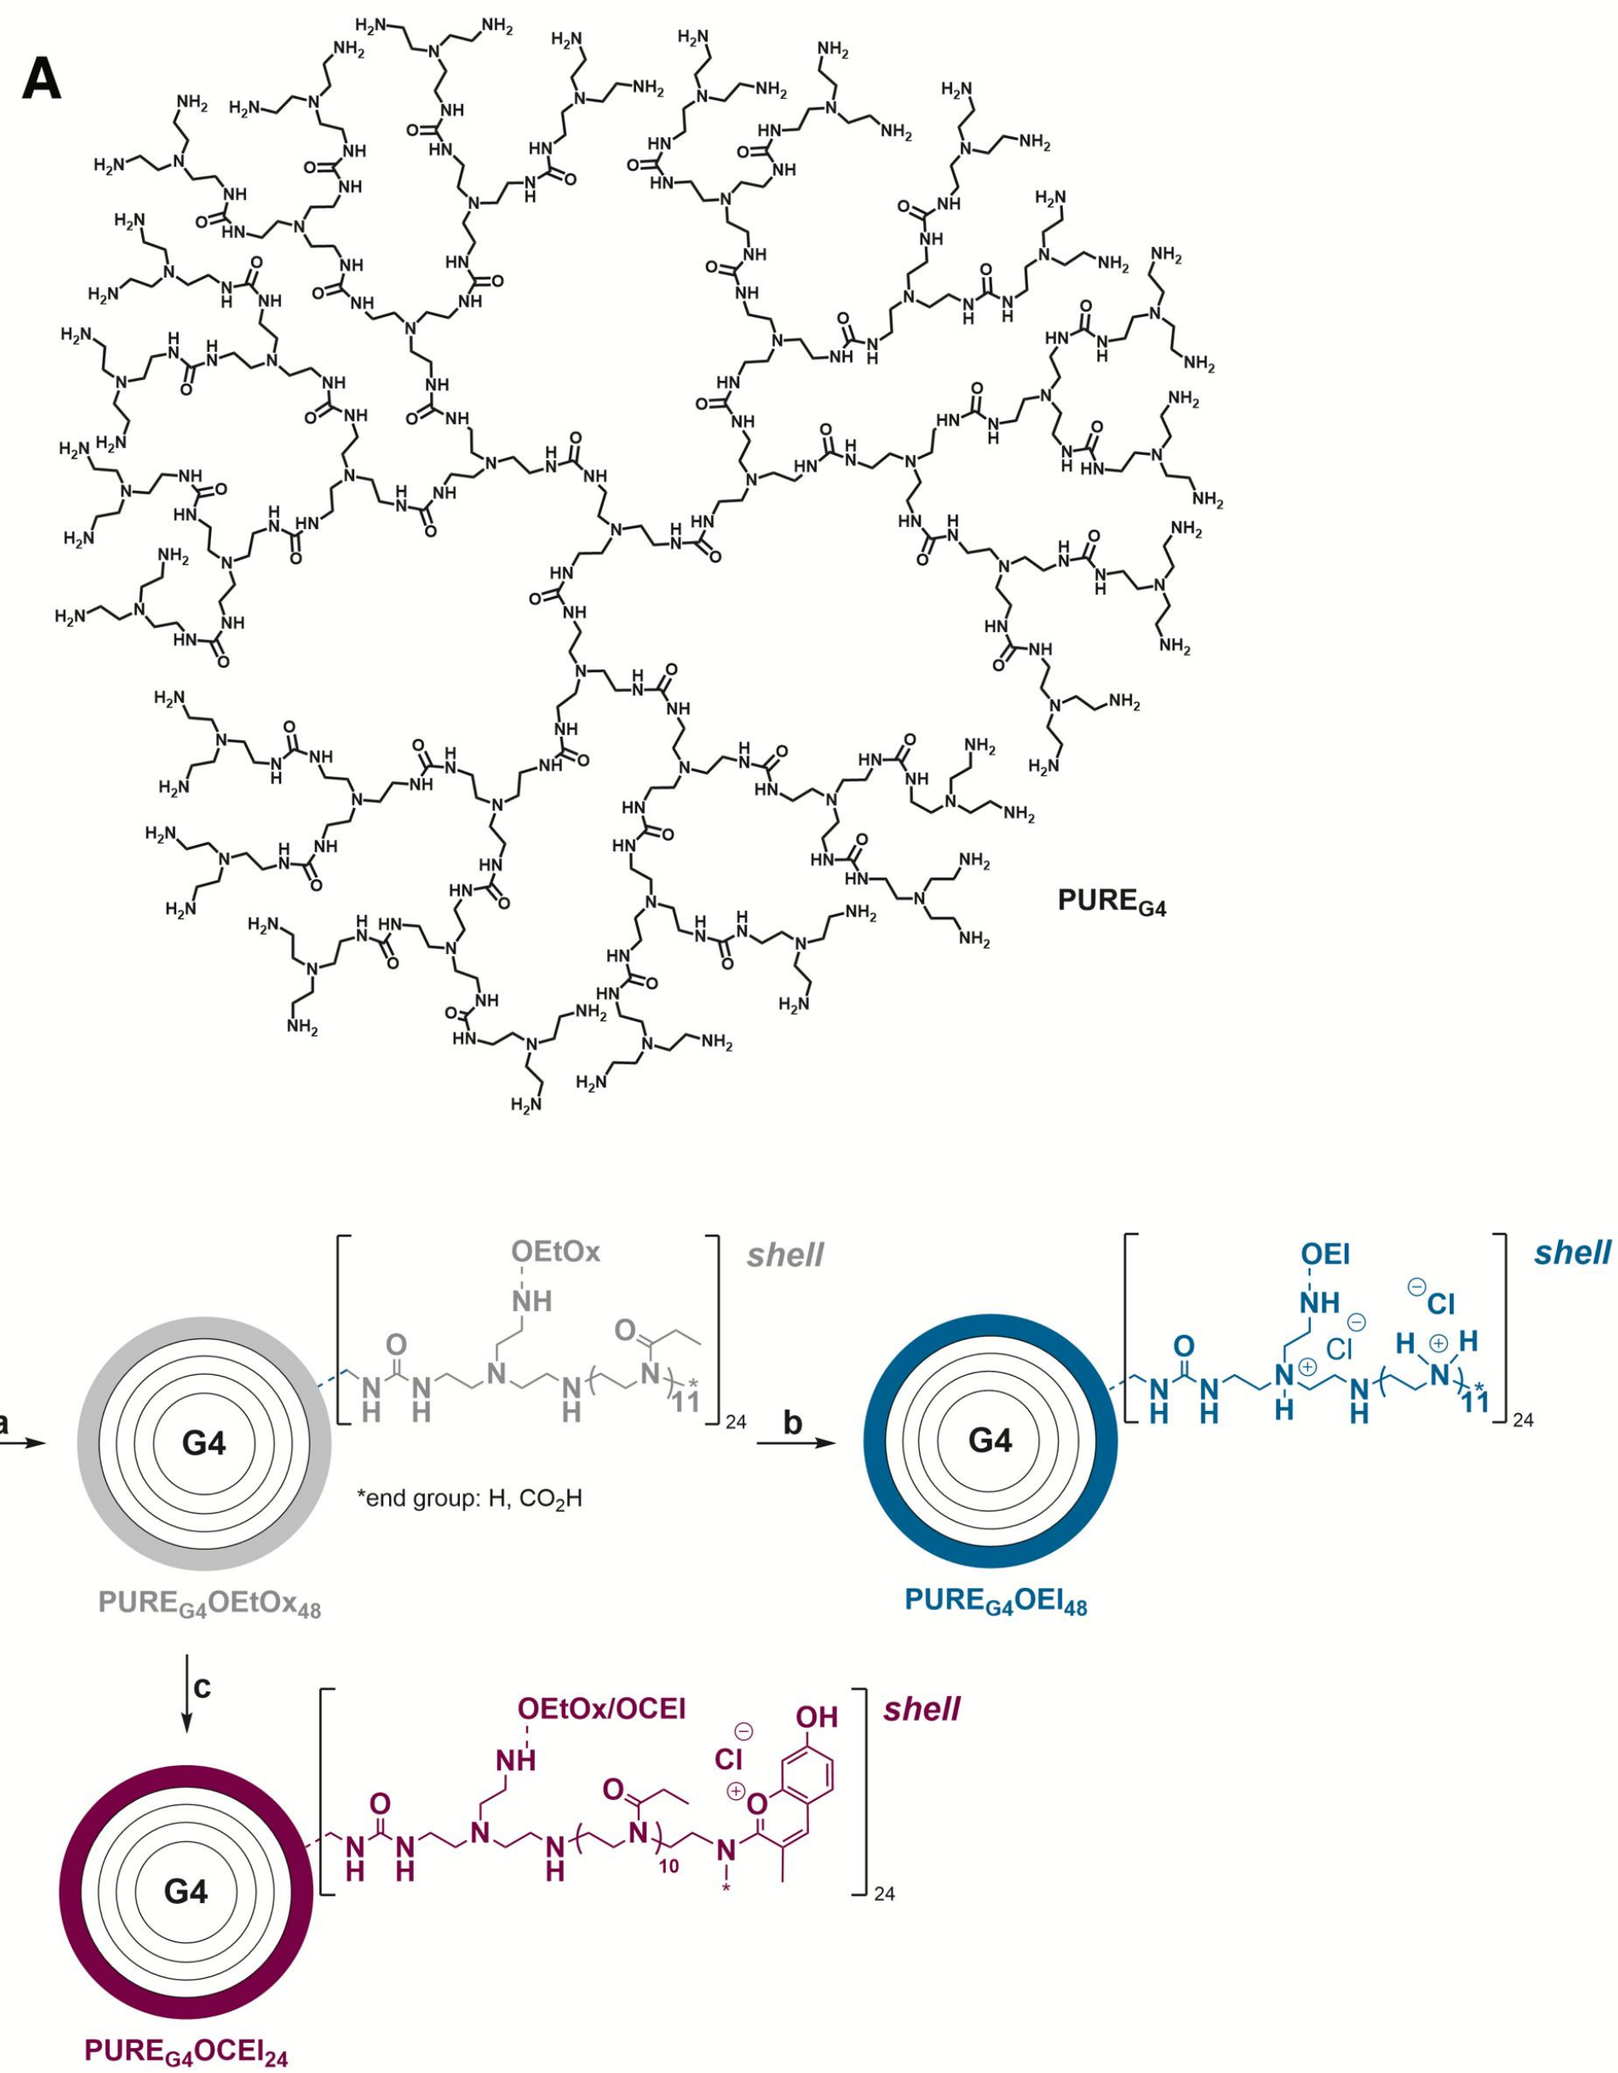

Figure 1. **A**) Chemical structure of PURE$_{G4}$ (core polyurea dendrimer generation 4). **B**) Schematic synthesis of core-shell dendrimers PURE$_{G4}$OEI$_{48}$ and PURE$_{G4}$OCEI$_{24}$, showing the schematic representation of the respective shells. Experimental conditions: **a**. EtOx, $BF_3.OEt_2$, $scCO_2$, 21 MPa, 70 ºC, 24 h. **b**. HCl 5M, 12 h. c. 2,4-DHB, HCl 37% (cat.), grinding 500 rpm, 3 h.
